Deliver ease and elevated experience

Stores as Hubs

Our stores are getting items into guests' hands quickly, on their terms and with only-at-Target touches that elevate the experience. **When we invest, we aim to make the experience even more enjoyable and easy for guests.** Plus, we are investing in digital tools for fulfillment — **ensuring more accuracy with guest orders and an easier experience for our team members.**

Deliver ease and elevated experiences

As consumers navigate change, we aim to be that reliable, convenient source of joy. That means nailing the retail fundamentals to deliver a consistently inspiring shopping experience every day across our stores and online — while investing in enhancements that make each guest feel appreciated, understood and rewarded for choosing Target through more personalized experiences.

Deliver Strategy Pillar

- Leverage stores as a strategic differentiator
- Continuously improve retail fundamentals
- Segment and personalize the experience to make Target “for me”
- Create brand experiences, events and services that are unique and human-centered
- Unlock the best of Target with a connected loyalty ecosystem that is individualized and rewarding

2024 priorities

- New stores and remodels
- Retail fundamentals
- Regional guest engagement
- Evolution of key fulfillment services
- Connected loyalty ecosystem

What if we stocked high-volume items in the hold space in-order-to:

- Reduce pick time
- Reduce handling for temperature quality and cost
- Reduce put to hold time
- Reduce footsteps
- Increase pick cart capacity
- Guarantee no INF

Identify high-volume items and stores

Top 10 items

- Single banana
- 1lb Strawberries
- 2lb Organic bananas
- 1gal 2% Reduced Fat Milk
- Avocado
- 1gal Vitamin D Whole Milk
- 11.2oz Blueberries
- 24pk Purified Drinking Water
- 8oz Shredded Mexican-Style Cheese
- 6oz Raspberries

Identify pathing (with and without item)

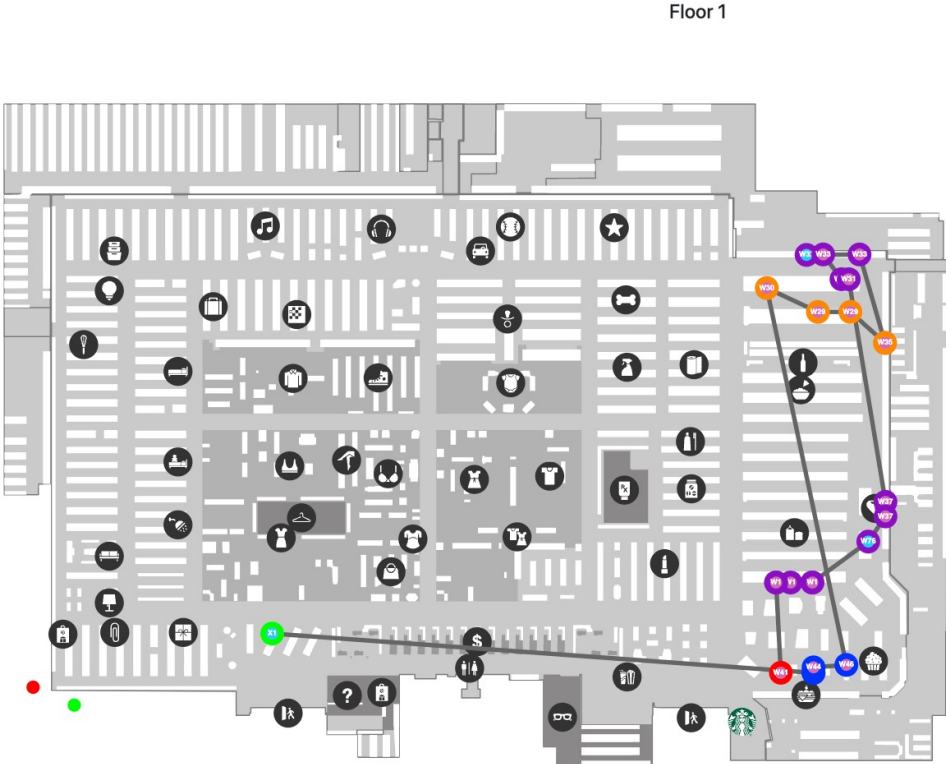

Examine pathing requests

Top 10 stores with last six months of orders containing top 10 items

Query and calculate pathing for with and without item in equation

Result: Concentrated pick – we are doing a really good job at pathing
(Shout out to the Neptune team!)

What's needed to continue?

Know thy inventory

- Know what and where
- ePick – aware of order needing milk and milk in hold
- Put to Hold – aware of order needing milk and label print

Pick and Put to Hold Pilot

- Process change – label print at Put to Hold, no need to pick
- If no milk at hold space, then regular pick from Sales Floor

Worst case scenario

Don't sell the milk

No milk on the sales floor

Takes up order capacity in hold

Average case scenario

Reduce handling, steps, and pick time

Guarantee a 'fresher' product for Guest

Guarantee no INF for common items

Purposeful use of hold space

Best case scenario

Target becomes known as the industry leader for the freshest milk available to the United States.

Thank you!
